

We can quickly reclaim the government from the rich and powerful.

The sooner Congress members realize that [we the people know how to fix the nation](#), the sooner they'll be afraid of losing their jobs and start fixing it.

Take action

The [Message Congress](#) tool makes it very easy to send members of Congress **clear, fact-based messages** that explain what needs to be done.

Use a suggested message, edit it, or write your own.

Even if your Congress members support good government, **message them**. Support strengthens resolve. Silence does not.

The most serious problems to fix

- [Remove Trump](#) from office and undo the harm he's done to the people, the democracy, the rule of law, and the fight against climate change
- [End trickle-down economics](#) (restore highly [progressive taxation](#)) to
 - improve [wealth distribution](#)
 - get the [benefits](#) that people in [happier nations enjoy](#). (We rank 24th in happiness)
 - [responsibly fund the government](#)
 - [meet our responsibilities as a great nation](#)
- [Overturn Citizens United](#) and end [rule by money](#)

We can restore the government of the people, by the people, and for the people.

Let's make it happen
